## Saskatchewan Stands Out in August

Saskatchewan continues to stand out for rail safety. While August was the worst month to date for incidents across Canada, our province recorded **ZERO** incidents during this period.

Even more encouraging, Saskatchewan has nearly as many crossings as Ontario, yet our incident rate remains the lowest in the country - just 2.0 per 1,000 crossings.

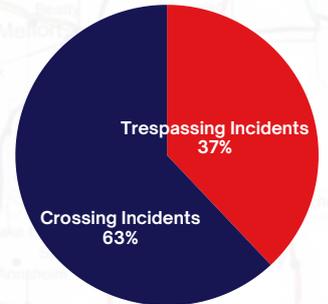

These results highlight the positive impact of education, awareness, and safe choices in keeping our communities safe.
